What this report lays out

- Source instrument: FSS
- Item count: 9 items
- Response format: 7 options
- Respondent: Patient

CLINICIAN REVIEW REQUIRED

This document demonstrates Lirena's report design using fictional data. It does not represent a scored FSS result, cannot establish a diagnosis, and must not be placed in a clinical record.

FSS reports the published band label. It does not diagnose a fatigue disorder.

A report designed for clinical review

Synthetic FSS example. The gauges and rows use this instrument's groups and range. They are not a client record.

REVIEW

The respondent rates all nine statements from 1 to 7 for the past week. Every rating is required.

CONTEXT

Lirena uses this rule. Score range: 963. Less than 36 (935), 36 or more (3663). FSS reports the published band label. It does not diagnose a fatigue disorder.

BOUNDARY

FSS reports the published band label. It does not diagnose a fatigue disorder.

REPORT PRINCIPLE

Show the evidence, the version, and the boundary. Leave diagnosis and formulation with the clinician.

FSS response pattern

Synthetic responses for FSS. The table uses this instrument's groups and range. It is not a client record and does not reproduce official item wording.

ITEM	GROUP	SYNTHETIC RESPONSE
1	Total	1
2	Total	2
3	Total	3
4	Total	4
5	Total	5
6	Total	6
7	Total	7
8	Total	1
9	Total	2

Synthetic FSS values only. Not a client record.

Source-led by design

Lirena separates published methodology, product implementation, and clinical approval. A citation does not by itself authorize administration or prove a software scoring rule.

INSTRUMENT

The FSS asks about fatigue severity and interference. Fatigue has many medical, psychiatric, and sleep-related causes, so a score is not a diagnosis. It is also listed among blood-testing-adjacent symptom measures because fatigue is reviewed before laboratory work, not because it orders tests.

ADMINISTRATION

The respondent rates all nine statements from 1 to 7 for the past week. Every rating is required.

CLINICAL BOUNDARY

FSS reports the published band label. It does not diagnose a fatigue disorder.

METHODOLOGY

Lirena uses this rule. Score range: 963. Less than 36 (935), 36 or more (3663). FSS reports the published band label. It does not diagnose a fatigue disorder.
