What this report lays out

- Source instrument: Menopause Symptom Tracker
- Item count: 24 items
- Response format: Varies by item
- Respondent: Patient

CLINICIAN REVIEW REQUIRED

This document demonstrates Lirena's report design using fictional data. It does not represent a scored Menopause Tracker result, cannot establish a diagnosis, and must not be placed in a clinical record.

Menopause Symptom Tracker is not a diagnosis. A result cannot replace clinician-led assessment, history, examination, or investigation where those are required.

A report designed for clinical review

Synthetic Menopause Symptom Tracker example. The gauges and rows use this instrument's groups and range. They are not a client record.

REVIEW

Menopause Symptom Tracker is completed by Patient. Response format varies by item. Reference period not sourced. The result is for clinician review.

CONTEXT

A Lirena-authored menopause symptom tracker, not a published or validated rating scale. The symptom total is the sum of items 3 to 19 and has no cut-off or severity bands. Items 1, 2 and 20 to 24 are shown for clinician review and are not scored. The implemented range is 0 to 68. Cutoff not implemented in Lirena.

BOUNDARY

Menopause Symptom Tracker is not a diagnosis. A result cannot replace clinician-led assessment, history, examination, or investigation where those are required.

REPORT PRINCIPLE

Show the evidence, the version, and the boundary. Leave diagnosis and formulation with the clinician.

Menopause Symptom Tracker response pattern

Synthetic responses for Menopause Symptom Tracker. The table uses this instrument's groups and range. It is not a client record and does not reproduce official item wording.

ITEM	GROUP	SYNTHETIC RESPONSE
1	Total	Synthetic response
2	Total	Synthetic response
3	Total	Synthetic response
4	Total	Synthetic response
5	Total	Synthetic response
6	Total	Synthetic response
7	Total	Synthetic response

14	Total	Synthetic response
15	Total	Synthetic response
16	Total	Synthetic response

Synthetic Menopause Symptom Tracker values only. Not a client record.

Source-led by design

Lirena separates published methodology, product implementation, and clinical approval. A citation does not by itself authorize administration or prove a software scoring rule.

INSTRUMENT

The tracker collects period and bleeding history, 17 symptom ratings, wider health concerns and what matters most to the client before a menopause consultation. It is not MRS, GCS, or a laboratory algorithm, and it does not recommend HRT.

ADMINISTRATION

Menopause Symptom Tracker is completed by Patient. Response format varies by item. Reference period not sourced. The result is for clinician review.

CLINICAL BOUNDARY

Menopause Symptom Tracker is not a diagnosis. A result cannot replace clinician-led assessment, history, examination, or investigation where those are required.

METHODOLOGY

A Lirena-authored menopause symptom tracker, not a published or validated rating scale. The symptom total is the sum of items 3 to 19 and has no cut-off or severity bands. Items 1, 2 and 20 to 24 are shown for clinician review and are not scored. The implemented range is 0 to 68. Cutoff not implemented in Lirena.
